

What's New from Ella 7.0.0

Thank you for choosing **Ella – Shopify Theme by Halothemes**. Ella 7.0.0 marks a major milestone — a **complete rebuild** of the theme with **Theme Block architecture**, designed for the future of Shopify.

✦ Highlights

- **Modern Redesign:** Home Classic, Jewelry, and Shoes have been completely redesigned with a **more modern, trend-forward look**, featuring cleaner layouts, refined typography, and smoother animations.

- **New Feature – Apply Discount on Cart:**
Customers can now enter and apply discount codes directly on the cart page, enhancing user experience and improving conversion rate.

Migration Notes

- **Ella 7.0.0** is a *new-generation rebuild* — not an incremental update. You'll need to **rebuild pages manually** using the new Flex Section layout (no auto-upgrade).
- You can keep **Ella 6.7.6** active for existing stores that rely on older structure.

Recommendation:

- Use **Ella 6.7.6** for stable legacy stores.
- Use **Ella 7.0.0** for new builds or redesign projects focused on flexibility and performance.
